

# CHANGES – 25 August 2011

- 1. An additional macro has been added to allow you to change a light with a sash/door within it back to a Fixed Light.

## Labour Rates – are set up under Resource/Labour/Grid

Some rates are per hour, some per sqm and some per lineal metre.

The screenshot shows the 'Resource' menu on the left and the 'Labour' dialog box on the right. The 'Labour' dialog box is titled 'Labour' and has a 'Library' dropdown set to 'Envirotech Facade Solutions' and a 'Type of Grid' dropdown set to 'Rates'. Below these is a table with columns for 'Types' and 'Areas' (101SGF, 101DGF, 150SGF, 150DGF, AC-35, AC-50, SGD, DGD, 101SF, 150SF, Adaptors, SDF, HD). The table contains 12 rows of data, each with a 'Types' label and 12 columns of '\$ 60.00' values. At the bottom of the dialog are buttons for 'Grid Setup...', 'OK', 'Cancel', and 'Help'.
